

## **Model Development Phase Template**

Date	10 July 2024
Team ID	740092
Project Title	Credit card approval prediction using ML
Maximum Marks	6 Marks

## **Model Selection Report**

In the forthcoming Model Selection Report, various models will be outlined, detailing their descriptions, hyperparameters, and performance metrics, including Accuracy or F1 Score. This comprehensive report will provide insights into the chosen models and their effectiveness.

Model	Description	Hyperparameters	Performance metric	
			(e.g., Accuracy, F1	
			Score)	
Random Forest	Ensemble of			
	decision trees;	_	Accuracy score =	
	robust, handles		81%	
	complex			
	relationships,			
	reduces overfitting,			
	and provides			
	feature importance			
	for credit card			
	approval prediction.			
Decision Tree	Simple tree			
	structure;	_	Accuracy score =	
	interpretable,		73%	
	captures non-linear			
	relationships,			
	suitable for initial
